BURGOMASTIR"

CCORDING to the following letter, this "soccer" or "socker" football isn't really such a girl's game as we have thought it. Thanks to Mr. O'Toole! In the light of his nunication I can see why the tume has been taken up in Kansas. Irish Counties Rooms, Nov. 9, 1905. Sporting Ection, Evening World:

Dear Sir-I thoroughly approve your attitude towards "soccer" football as expressed in your issue of Oct. 28. As you are in a position in which you can exert more influence than most men, I hope that you will entertain my ideas relative to football.

I have played rugby, soccer and Gaelic football for various periods within the last eighteen years. I have had my arm broken, my ribs crushed and received many dangerous wounds playing rugby.

I saw a man killed at Landsdown Road Grounds, Dublin, when engaged in Rugby in February, 1895.

Soccer is utterly unfit for amateur athletes. It is an English professional game, the players receiving a remuneration of about £4 a man per week.

Another feature of this game which may be unknown to you is the dangerous element called "hackling." When the ball is in high play and the men in the chest, stomach and limbs, the kicks received on the front part of the leg from knee-cap to ankle constitutes "hackling." A "hacked" man is useless as a runner or for any other branch of athletics, as his recovery is

Fizzimmons manages to get away with Jack O'Brien next month he will be challenged by Al Kaufman, the young heavyweight, who lost to O'Brien here a month ago. If people in the East feel inclined to laugh at this they will be marking a mistake. Kaufman is well regarded by the sports here in spite of his deleat, and it wouldn't be anything of a surprise in the turned out good enough to beat O'Brien or any of the other fighters in the ring within a year.

I have known Kaufman for a year past, and before he tried his hand at the fighting game. He is a blacksmith by trade, a big. strong, muscular feilow, in condition he weight for a fineteen year-old, youngster—and he hasn't an ounce of fat on him.

Bad Matchmaking.

I boxed with him a cougle of times, and four fights—three bouts in which he knecked out his man in less than around, and his last fight with O Brien. The idea of matching a boy of Kaufman's limited experience against an old ringster of O Brien's calibre wise he worst bit of matchmaking I have had charge of Kaufman, did the matching. To my knowledge Delaney, has been identified with but two fighters—Jim Corbett and Jeffries. Whether or not he knows anything about the fighting game I have my doubts. In matching the worked of a bit of change, probably the latter.

I sat at the ringside and saw the fight, Kaufman, young and linexperi-fight, Kaufman, young and linexperi-fight, Kaufman, young and linexperi-fight. Kaufman young and linexperi-fight. Kaufman, young and linexperi-figh

Makings of a Champ.

Kaufman, in my opinion, has the making of a heavyweight champion, and unless his fight with O'Brien has aken all the nerve out of him (which s not unlikely) he will yet he heard down right at the ton of the ladder. I hink him the likeliest heavyweight I ave ever seen.
